**DETAILED ACTION**

***Response to Arguments***

1. Applicant's arguments, filed on July 13, 2010 with respect to claims 1-43 have been considered and they are persuasive. Accordingly, the rejection of claims 1-43 has been withdrawn.

**EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Michael Murphy on September 22, 2010.

[Begin Audit]

IN THE CLAIMS:

Claims 17 and 25 have been amended as follows:

17. (Currently Amended) A method of managing dormant handoffs of mobile stations at a wireless communication network Packet Control Function (PCF), the method comprising:

at the PCF, recognizing that a mobile station undergoing dormant handoff has multiple packet data service instances; and

at the PCF, sending an indication of the multiple packet data service instances to a Base Station (BS) supporting the dormant handoff of the mobile station.

25. (Currently Amended) A method of managing dormant handoffs of mobile stations at a wireless communication network Packet Data Serving Node (PDSN), the method comprising:

at the PDSN, receiving a registration request message for a first packet data service instance associated with a mobile station undergoing a dormant handoff;

at the PDSN, determining that more than one packet data service instance is associated with the mobile station; and

at the PDSN, sending an indication of multiple packet data service instances in a registration reply message responsive to the registration request message.

[End Audit]

### **Allowable Subject Matter**

3. Claims 1-43 are allowed.

The following is the examiner's statement of reasons for allowance:

The prior art fails to teach or suggest the limitation, "recognizing that the mobile station has additional packet data service instances requiring dormant handoff and, responsive to said recognizing, selectively assigning a traffic channel to the mobile station to cause the mobile station to send additional dormant handoff requests for the additional packet data service instances over the assigned traffic channel." as in claim 1, the limitation, "at the PCF, recognizing that a mobile station undergoing dormant handoff has multiple packet data service instances; and at the PCF, sending an indication of the multiple packet data service instances to a Base Station (BS) supporting the dormant handoff of the mobile station," as in claim 17, the limitation, "at the PDSN, determining that more than one packet data service instance is associated with the mobile station; and at the PDSN, sending an indication of multiple packet data service instances in a registration reply message responsive to the registration request message," as in claim 25, the limitation, "receiving a dormant handoff request from a mobile station for a first packet data service instance via a common access channel shared with other mobile stations; determining whether the mobile station is associated with multiple packet data service instances; and if the mobile station is associated with multiple packet data service instances, assigning a traffic channel to the mobile station to cause the mobile station to send additional dormant handoff requests for any additional packet data service

instances via signaling on the assigned traffic channel,” as in claim 29, and the limitation, “recognize that the mobile station has additional packet data service instances requiring dormant handoff and, responsive to that recognition, selectively assign a traffic channel to the mobile station to cause the mobile station to send additional dormant handoff requests for the additional packet data service instances over the assigned traffic channel,” as in claim 30 along with other limitations of the claims.

Any comments necessary by applicant must be submitted no later than the payment of the issue fee, and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance”.
